

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A loudspeaker comprising

a frame,

a magnetic circuit held by the frame,

a voice coil body disposed so as it can move freely in a magnetic gap of the magnetic circuit,

a diaphragm whose outer circumferential end is connected to the frame via a first edge, and

a suspension holder whose outer circumferential end is connected to the frame via a second edge; and wherein

a supporting section attached to the voice coil body, wherein:

~~the voice coil body is provided at the outer wall surface with a supporting section which is protruding outward, and a diameter of an inner circumference of the suspension holder is greater than an outer diameter of the voice coil body while a diameter of the of an inner circumference of the diaphragm is greater than a than the diameter of the inner circumference of the suspension holder, for facilitating a gluing of the inner circumferential end of suspension holder and the inner circumferential end of diaphragm on the supporting section and to the voice coil body;~~

the suspension holder has an inner circumferential portion which is disposed on a top surface of the supporting section and is coupled via an adhesive to the voice coil body, and

the diaphragm is supported by the suspension holder.
